

Mikkel N. Schmidt

Associate Professor, Statistical Machine Learning

Curriculum Vitae

Personalia

Name Mikkel N. Schmidt
Address Store Mølle Vej 17, 1. tv., 2300 København S., Denmark
Birth date 6 July 1978
Nationality Danish

Education

2012 **Programme for PhD supervisors**
LearningLab, Technical University of Denmark

2011 **Education in University Teaching**
LearningLab, Technical University of Denmark
Module 1: Teaching and Learning. Module 2: Teaching Methods and Course Planning.
Module 3: Teaching and Teacher Development. Module 4: Teaching Development Project.

2008 **Ph.D. in Mathematical Modeling**
Technical University of Denmark
Thesis: "Single-channel source separation using non-negative matrix factorization"
Supervisor: Associate Professor Jan Larsen

2003 **M.Sc. in Electronic and Electrical Engineering**
Aalborg University
Specialization: Speech Communication, Signal Processing
Masters thesis grade: 11

2001 **B.Sc. in Engineering**
Herning Institute of Business Administration and Technology
Grade point average: 11.2

Employment

2013– **Associate Professor**
DTU Compute, Technical University of Denmark

2012 **Assistant Professor**
DTU Informatics, Technical University of Denmark

2011–2012 **Postdoctoral researcher**
DTU Informatics, Technical University of Denmark
Network for Danish Audio Technology.

2009–2011 **Postdoctoral researcher**
DTU Informatics, Technical University of Denmark
Grant from Danish Research Council, 2 years

2008–2009 **Postdoctoral researcher**
University of Cambridge
Grant from Villum Kann Rasmussen, 1 year

2008 **Postdoctoral researcher**
DTU Informatics, Technical University of Denmark, 7 months

2007 **Visiting Ph.D. student**
LabROSA, Columbia University, New York, 6 months

2005–2008 **Ph.D. student**
DTU Informatics, Technical University of Denmark, 3 years

Teaching experience

Awarded DTU Lecturer of the Year 2020

Courses

2024– Advanced machine learning (course design, course responsible, lecturer)
2018– Introduction to intelligent systems (course design, course responsible, lecturer)
2018– Machine learning, continuing education (course design, course responsible, lecturer)
2015–2021 Advanced machine learning (group supervisor)
2019– Deep learning (group supervisor)

2014–18	Introduction to programming and data processing (course design, course responsible, lecturer)
2013–19	Audio information processing systems (course design, co course responsible)
2012–13	Programming of mathematical software (course design, course responsible, lecturer)
2010–	Introduction to machine learning and data mining (course design, co course responsible, lecturer 2010–11)
2010–11	Machine learning for signal processing (lecturer, group supervisor)
2010–14,16,22	Advanced topics in machine learning (lecturer)
2011	Non-linear signal processing (teaching assistant)
2005–06,10–12	Digital signal processing (lecturer, teaching assistant)
2008,10–11	Advanced digital signal processing (lecturer)
2006–07	Applied digital signal processing (group supervisor)
2006	Introduction to computer systems (teaching assistant)

Thesis supervision

- 23 Bachelor’s student.
- 39 Master’s students.
- 18 Ph.D. students.
- 2 Postdoctoral researchers

Research interests

Statistical models are used in all areas of science to describe stochastic relations between variables. In statistical modeling, probability theory is used to describe the uncertainty that is present due to inaccurate measurements, model mismatch, missing data, etc. The process of drawing conclusions based on statistical models is called statistical inference. The aim of my research is to develop novel statistical methodology, which includes:

1. Formulating probabilistic models and devising procedures for computational inference, evaluation, and validation.
2. Applying the developed methodology to solve problems in various application areas in science and industry.

Keywords: Bayesian statistical models. Machine learning for supervised and unsupervised learning. Latent variable models and source separation. Approximate inference in statistical and probabilistic models. Non-parametric Bayesian data analysis.

Grants and stipends

- Principal investigator, Bayesian neural networks for molecular discovery
Novo Nordisk Foundation, Data Science Investigator—Ascending
5 years, DKK 9.7 M. Technical University of Denmark, 2023.
- Principal investigator, Machine learning-enabled fiber-optic communication (MARBLE)
Villum Fonden Synergy Grant
2 years, DKK 3.0 M., Technical University of Denmark, 2021.
- Principal investigator, Towards real time Raman molecular imaging of living organisms
The Danish Council for Independent Research, Technology and Production Sciences,
3 years, DKK 2.8 M., Technical University of Denmark, 2019.
- WP-lead, Self-correcting Unsupervised Reaction Energies (SURE).
Novo Nordisk Foundation, PI: T Vegge / O Winther.
2 years research project. DKK 5.0M. DTU Energy / DTU Compute (2020-2022)
- Co-investigator, Understanding Mindsets across Markets Internationally (UMAMI)
Innovation Fund Denmark, PI: A Josiassen / FK Glückstad.
4 year research and innovation project, DKK 4.7M,
Copenhagen Business School / Technical University of Denmark 2017
- Co-investigator, Modeling of Functional and Structural Brain Connectivity
The Lundbeck Foundation, PI: M Mørup,
5 years research project, DKK 10M, Technical University of Denmark
- Principal investigator, Source separation using machine learning
The Danish Council for Independent Research, Technology and Production Sciences postdoc grant,
2 years, DKK 1.7 M., Technical University of Denmark, 2009.
- Principal investigator, Matrix factorization with non-parametric Bayesian priors for source separation
Villum Kann Rasmussen postdoc scholarship,
1 year, DKK 0.5M., Cambridge University, UK., 2008.

- NVIDIA Academic hardware grant
Algorithms and Numerical Techniques, Big Data, Machine Learning and AI, 2014.
- Financial support for external research
Marie & M. B. Richters Fond, Oticon Fonden, and Otto Mønstedts Fond, 2007
- Ph.D stipend Technical University of Denmark Ph.D. stipend, 3 years, 2005.

Scientific publications and citations

- Refereed journal papers: 34
- Refereed conference papers: 56
- Number of citations (according to Google Scholar): 3731
- H-index (according to Google Scholar): 28

Editorial Roles

- Senior Area Chair, Neural Information Processing Systems (NeurIPS), Conf. on
